ATTRACTIVELY STRIPED GLASSWARE

COLORFUL, DECORATED CRYSTAL-WARE

There have been many stripe decorations applied to Crystal Glassware, but none more effective than our Decoration 97, illustrated above. The wide White Band with the contrasting red stripes produces a particularly pleasing effect. In ordering remember that the Tumblers and Stemware are multiple sellers and are seldom sold in less than sets of six. You'll need far more of these than you will of the pieces which are sold singly. Instruct your salespeople to recommend the purchase of Luncheon Plates, Cups, Saucers, Sherbets and Footed Tumblers for an attractive Luncheon Service.
